Having looked on CRC it seems I may be able to buy a better shock for £60 more anyway so I am thinking of doing this instead of having the triad repaired.

I understand the stock Fox Triad shock is 7.5" x 1.75", and read in another forum that the best replacement would be a Fox RP23 7.875" x 2.0"... to allow slightly further travel without the shock linakge hitting the frame. The reason for the replacement is that there is a lot of scoring on the brushings due to use.
