Ostensibly the juvenile justice system was designed to reform wayward juveniles to keep them out of the adult criminal justice system.

Stephen Hawking was recognized as one of the greatest minds of our time and a figure of inspiration after defying his answers to the "big" questions that he was so often posed-questions that ranged beyond his academic field. Within these pages, he provides his personal views on our biggest challenges as a human race, and where we, as a planet, are heading next. Each section will be introduced by a leading thinker offering his or her own insight into Professor Hawking's contribution to our understanding. The book will also feature a foreword from Academy Award winning actor Eddie Redmayne, who portrayed Hawking's daughter, Lucy Hawking's daughter, Lucy Hawking as well as personal photographs and additional archival material.

#1 NEW YORK TIMES BESTSELLER [] The world-famous cosmologist and author of A Brief History of Time leaves us with his final thoughts on the biggest questions facing humankind. THE NO.1 SUNDAY TIMES BESTSELLER 'A beautiful little book by a brilliant mind' DAILY TELEGRAPH 'Effortlessly instructive, absorbing, up to the minute and - where it matters - witty' GUARDIAN The world-famous cosmologist and #1 bestselling author of A Brief History of Time leaves us with his final thoughts on the universe? Will artificial intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligent life in the universe? Will artificial intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is there other intelligence outsmart us? How do we shape the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is inside a black hole? Is the future? What is the futu Throughout his extraordinary career, Stephen Hawking expanded our understanding of the universe and unravelled some of its greatest mysteries. But even as his theoretical work on black holes, imaginary time and multiple histories took his mind to the furthest reaches of space, Hawking always believed that science could also be used to fix the problems on our planet. And now, as we face potentially catastrophic changes here on Earth - from climate change to dwindling natural resources to the threat of artificial super-intelligence - Stephen Hawking turns his attention to the most urgent issues for humankind. Wide-ranging, intellectually stimulating, passionately argued, and infused with his characteristic humour, Brief Answers to the Big Questions, the final book from one of the greatest minds in history, is a personal view on the challenges we face as a human race, and where we, as a planet, are heading next. A percentage of all royalties will go to charity.
