I have the custom npc mod version 1.6.4 on my mcprohosting server and modpack and I am trying to add skins. When I try to add a skin such as this it turns out something like this. I don't know what to do. I have several skins from skindex that I have not edited that do work. I use the Skin creator free app for apple. Thank you for any help.

Welcome to my Patreon page. My name is Karel, maybe better known as Noppes online. I've created several Minecraft mods such as: CustomNPCs, MorePlayerModels and AnimalBikes. Back in 2011 when minecraft was still in beta I started and since then I've almost continually been modding. Supporting me on Patreon would allow me to afford spending more time making mods, which in turn means more content and higher quality.

Heya! Assuming that you mean the items that used to be added by CNPCs (Various Pistols, longer swords, spears, ECT) That was switched over to another mod that Noppes made called "Varied Commodities" Which you can find by clicking this. Otherwise, if you are talking about the ordinary custom npcs items, like the npc wand or the duplicator, they are crafted like normal tools, but with...
