This book takes a transnational and comparative approach that analyses the process of diffusion of a third way? in selected transitions to authoritarianism in Europe and Latin America. When looking at the authoritarian wave of the 1930s, it is not difficult to see how some regimes appeared to offer an authoritarian third way somewhere between democracy

and fascism. It is in this context that some Iberian dictatorships, such as those of Primo de Rivera in Spain, Salazar's New State in Portugal and the short-lived Dollfuss regime in Austria are mentioned frequently. Especially during the 1930s, and in those parts of Europe under Axis control, these models were discussed and often adopted by several dictatorships. This book considers how and why these dictatorships on the periphery of Europe, especially Salazar's New State in Portugal, inspired some of these regimes' new political institutions particularly within Europe

and Latin America. It pays special attention to how, as they proposed and pursued these authoritarian reforms, these domestic political actors also looked at these institutional models as suitable for their own countries. The volume is ideal for students and scholars of comparative fascism, authoritarian regimes, and European and Latin American modern history and politics.

and prose exceeds narrow definitions of artists by movements or poets by style. His work began with and returned to timeless subjects such as children, animals, love, war, death, and God, diverging at points into rigorously imposed structures, systems, and chance operations in an effort to suppress the ego in his art. At one point, embarrassed by his depth of feeling, Mac Low confesses to being an 'existential poet,' a declaration that the title of the poem A Lack of Balance But Not Fatal contradicts with modest and generous humor. This is an important and often very

Low's thought, at the same time as it reflects the preoccupations of his generation and ranges over a wide variety of approaches to writing and art making.

Thing of Beauty is a "manifesto," the term Mac Low would use to describe expressions of personal truth; and his are beautiful."—Kristine Stiles, Professor of Art History, Duke University "In this generous selection of Jackson Mac Low's work, we can see, first hand, the poet's profound understanding of the physics of language and his exuberant articulation of

unpredictable motions. The multiplicity of Mac Low's forms and his rejection of any hierarchy among the forms of poetry (objective and subjective, expository or nonrepresentational, lyric and epic), along with his refusal to identify poetic composition with a characteristic 'voice' of the poet and his rejection of traditional aesthetic standards of beauty, are among the chief marks of his iconoclastic genius. Mac Low's magnificent and multidimensional poems open vast expanses for the imagination to inhabit."—Charles Bernstein
