Amazon.com: Drawing Requirements Manual (DRM) ...  
A drawing is a specification which needs to be communicated. The information may be communicated electronically or in a hard copy format. The drawing needs to be of a suitable scale for duplicating and of a sufficient scale such that if is micro-copied it can be suitable magnified without loss of quality. Drawings must be language-independent.

Requirements of engineering drawings—Engineering Drawing  
• All drawings shall be plotted full size, stamped, and wet signed. Note: All drawing stamps and signatures must comply with OAR and ORS requirements. • The drawings shall meet the CAD and printing standards described in this manual. • See the Reprographics section for further requirements. Addenda

CAD & BIM Standards Manual  
drawings must be used, they must have the same log number and document number listed in the title block. All sheets must have the same title (i.e., Title1 through Title5) listed in the title blocks, and the sheets must be the same size and scale. When revising multiple-sheet drawings, the revision level must be updated on all sheets. Multiple-sheet

AES Design Drafting Standards  
We use Global Engineering Document's "Drawing Requirements Manual" as a guideline for the drafting department. Our plans are to make a simplified company drafting manual from it just to have the frequently used information. Plus put other information in this manual like hardware specs, hole specs, sample drawings, etc...
