In the Covenant of Salt, Nguumbur takes you on a journey that will give you hope and encouragement. She explores with authority insights on Gods ways and shows by biblical examples and personal experiences how He relentlessly pursues the people He created. She breaks down in practical terms what the salting process means for us today and its relevance in navigating the painful and daunting challenges of life – from confronting and defeating giants to the art of living at the Table, to discovering your true identity and actualising your true purpose. This book is for everyone who has ever struggled with either sin or pain and thought, “God is not able or willing to help me with this.” It is for everyone who has ever been in deep crisis and cried out for help and, finding none, resigned themselves to their situation. It is for everyone who has ever been delivered from shame and disgrace, and then found themselves in the same mess all over again, no matter how hard they tried. It is for everyone who has suffered abuse, lost spouse,

children, friends, job, and possessions trying to find themselves in this world. It is for everyone who finds themselves perpetually asking, "Why me? Why am I here? Will I ever make it?" Hopefully, this book will provide the answers you seek. You will discover that God is real. He is still as active and potent in our day and in our individual lives as He was in the days of the Bible. You will find that he is the healer of hearts, binder of wounds, and restorer of lost lives and fortunes. He flows through our lives and fills every part of it with His relentless and wild love. This book will not only change the way you see God in your life, it will give you hope, encourage your heart and deepen your relationship with Him.

Master the Crucial Non -Technical Skills Every Software Architect Needs! Thousands of software professionals have the necessary technical qualifications to become architects, but far fewer have the crucial non-technical skills needed to get hired and succeed in this

Now, long-time software architect Dave Hendricksen helps you fill this gap, supercharge your organizational impact, and quickly move to the next level in your career. In *12 Essential Skills for Software Architects*, Hendricksen begins by pinpointing the specific relationship, personal, and business skills that successful architects rely upon. Next, he presents proven methods for systematically developing and sharpening every one of these skills, from negotiation and leadership to pragmatism and vision. From start to finish, this book's practical insights can help you get the architect position you want-and thrive once you have it! The soft skills you need... ..and a coherent framework and practical methodology for mastering them!

Who doesn't love apples? Grown, harvested and eaten for centuries, apples play an important role in everyday life and are enjoyed in a huge variety of ways. Author James Rich hails from apple country in Somerset, England, where his family own a cider farm. Apples, it could be said, are in his blood, this is a collection of over 90 of his best-loved recipes. Try your hand at a summery Crunchy apple, cherry and kale salad, a comforting Slow-roasted pork belly and pickled apple, and an Ultimate apple crumble, all washed down with a Cider and thyme cocktail. James uses whole apples as well as cider, apple juice, cider brandy and cider vinegar to add depth to his dishes. Apples can be delicate and complementary, floral and simple or they can be bold, sharp and stand out from the crowd. Set to the backdrop of his family's stunning apple, Apple is a celebration of this humble fruit.
