This two-in one resource includes the Tactical Commanders and Staff Toolkit plus the Liaison Officer Toolkit. Defense Support of Civil Authorities (DSCA)) enables tactical level Commanders and their Staffs to properly plan and execute assigned DSCA missions for all hazard operations, excluding Chemical, Biological, Radiological, Nuclear, high yield Explosives (CBRNE) or acts of terrorism. Applies to all United States military forces, including Department of Defense (DOD) components (Active and Reserve forces and National Guard when in Federal Status). This hand-on resource also may be useful information for local and state first responders. Chapter 1 contains background information relative to Defense Support of Civil Authorities (DSCA) including legal, doctrinal, and policy issues. Chapter 2 provides an overview of the incident management processes including National Response Framework (NRF), National Incident Management Systems (NIMS), and Incident Command System (ICS) as well as Department of Homeland Security (DHS). Chapter 3 discusses the civilian and military responses to natural disaster. Chapter 4 provides a brief overview of Joint Operation Planning Process and mission analysis. Chapter 5 covers Defense Support of Civilian Authorities (DSCA) planning factors for response to all hazard events. Chapter 6 is review of safety and operational composite risk management processes Chapters 7-11 contain Concepts of Operation (CONOPS) and details five natural hazards/disasters and the pertinent planning factors for each within the scope of DSCA.

The ITERS-R is a thorough revision of the widely used program quality assessment instrument, The Infant/Toddler Environment Rating Scale. Designed for use in center-based child care programs for infants and toddlers up to 30 months of age, the ITERS-R can be used by program directors for supervision and program improvement, by teaching staff for self-assessment, by agency staff for monitoring, and in teacher training programs. The established reliability and validity of the scale make it particularly useful for research and program evaluation. Book jacket.

Comprehensive Critical Care: Adult is the most complete critical care textbook for any learner in adult

practice. Developed by leading experts in critical care, this comprehensive textbook covers 10 topic areas, including -Neurologic Critical Care - Cardiovascular Critical Care -Respiratory Critical Care -Critical Care Infectious Disease -Hepatic, Gastrointestinal, and Hematologic/Oncologic Disease in the ICU -Renal and Metabolic Disorders in the ICU -Environmental and Toxicologic Injury - Pharmacologic Issues in the ICU -Surgical and Obstetrical Critical Care -Administrative and Ethical Issues in the Critically Ill This new resource includes up-to-date information on the full gamut of critical care topics, with dozens of charts and tables to aid study and copious references to guide further reading.

Covering all four critical care board exams (anesthesiology, surgery, internal medicine, and neurology), *Critical Care Medicine Review: 1000 Questions and Answers* prepares you for exam success as well as clinical practice in today's ICU. This full-color, easy-to-use review tool provides challenging case studies, relevant images, multiple-choice board-style questions, rationales for correct and incorrect answers, and references for every question. Edited by instructors of anesthesia and critical care from Harvard Medical School and Massachusetts General Hospital, this comprehensive resource is an ideal study guide for critical care fellows, recertifying practitioners, and CCRNs.

Corporate Governance is a comprehensive textbook specially designed to meet the requirements of postgraduate management students. It provides an in-depth analysis of the core concepts and supplements them with relevant examples, exhibits and case studies. The book begins with an exhaustive introductory chapter defining corporate governance and a director's role in a company. Further, divided into four parts, part 1 covers types of corporations, theories and models of governance. It also examines the events which have led to the current thrust of corporate governance addressing the Cadbury report in UK, Sarbanes-Oxley Act, 2002 in USA as well as the committees constituted by SEBI. Part 2 elaborates on the structure of the board and its development process. It also highlights the issues related to compensation, performance review of the Director as well as the importance of leveraging good governance for competitive advantage. Part 3 gives a broad view of governance related problems associated with typical ownership patterns, and capital market institutions from a stakeholder's perspective. The ground rules for a director to perform his responsibilities and duties are also discussed in this part. The book concludes with a chapter discussing the future of corporate governance in part 4. Owing to its comprehensive coverage and approach, students will find this book useful. It will also serve as a veritable guide for professionals owing to the inclusion of varied examples and case studies.

This handbook of paediatric gastroenterology, hepatology and nutrition provides a concise overview of key topics in these three closely related specialties.
