"[Thich Nhat Hanh] shows us the connection between personal, inner peace and peace on earth." --His Holiness The Dalai Lama Nominated by Martin Luther King, Jr. for a Nobel Peace Prize, Thich Nhat Hanh is one of today's leading sources of wisdom, peace, compassion and comfort. The 20th anniversary edition of the classic text, updated, revised, and featuring a Mindful Living Journal. Buddha and Christ, perhaps the two most pivotal figures in the history of humankind, each left behind a legacy of teachings and practices that have shaped the lives of billions of people over two millennia. If they were to meet on the road today, what would each think of the other's spiritual views and practices? Thich Nhat Hanh has been part of a decades-long dialogue between two great contemplative traditions, and brings to Christianity an appreciation of its beauty that could be conveyed only by an outsider. IN lucid, meditative prose, he explores the crossroads of compassion and holiness at which the two traditions meet, and he reawakens our understanding of both. "On the altar in my hermitage," he says, "are images of Buddha and Jesus, and I touch both of them as my spiritual ancestors."

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller--nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of

Now he's back, demanding her body, her desire, her very soul as retribution for the pain he still carries. He won't settle for anything less than everything she's got, but she still can't leave with him and he still can't stay, and their past has secrets too explosive to share.

The concept of disparity has long been a topic of obsession and argument for philosophers but Slavoj Žižek would argue that what disparity and negativity could mean, might mean and should mean for us and our lives has never been more hotly debated. *Disparities* explores contemporary 'negative' philosophies from Catherine Malabou's plasticity, Julia Kristeva's abjection and Robert Pippin's self-consciousness to the God of negative theology, new realisms and post-humanism and draws a radical line under them. Instead of establishing a dialogue with these other ideas of disparity, Slavoj Žižek wants to establish a definite departure, a totally different idea of disparity based on an imaginative dialectical materialism. This notion of rupturing what has gone before is based on a provocative reading of how philosophers can, if they're honest, engage with each other. Slavoj Žižek borrows Alain Badiou's notion that a true idea is the one that divides. Radically departing from previous formulations of negativity and disparity, Žižek employs a new kind of negativity: namely positing that when a philosopher deals with another philosopher, his or her stance is never one of dialogue, but one of division, of drawing a line that separates truth from falsity.
