Written by a group of dedicated flamenco enthusiasts, this book traces the history and development of the art of flamenco, that proud, soulful, stirring folk music and dance created by the gypsies of the Andalusian region of Spain in the 19th century. The essays examine the musical, artistic, and spiritual aspects of flamenco as well as its social context and history. The great performers both past and present are identified and discussed.

This definitive work on the contribution of the Gypsies to the development of flamenco traces their influences on music from their long migration from India, through Iran, Turkey, Greece, and Hungary, to their persecution in Spain. This new updated edition provides fuller explanations of some of the technical terms and an invaluable biographical dictionary of 200 of the foremost Gypsy flamenco artists from its origins to the present day, as well as a discography and videography.

How did flamenco—a song and dance form associated with both a despised ethnic minority in Spain and a region frequently derided

by Spaniards—become so inexorably tied to the country's culture? Sandie Holguín focuses on the history of the form and how reactions to the performances transformed from disgust to reverence over the course of two centuries. Holguín brings forth an important interplay between regional nationalists and image makers actively involved in building a tourist industry. Soon they realized flamenco performances could be turned into a folkloric attraction that could stimulate the economy. Tourists and Spaniards alike began to cultivate flamenco as a representation of the country's national identity. This study reveals not only how Spain designed and promoted its own symbol but also how this cultural form took on a life of its own.

The fandango, emerging in the early-eighteenth century Black

# Bookmark File PDF Flamenco Gypsy Dance And Music From Andalusia

Atlantic as a dance and music craze across Spain and the Americas, came to comprise genres as diverse as Mexican son jarocho, the salon and concert fandangos of Mozart and Scarlatti, and the Andalusian fandangos central to flamenco. From the celebrations of humble folk to the theaters of the European elite, with boisterous castanets, strumming strings, flirtatious sensuality, and dexterous footwork, the fandango became a conduit for the syncretism of music, dance, and people of diverse Spanish, Afro-Latin, Gitano, and even Amerindian origins. Once a symbol of Spanish Empire, it came to signify freedom of movement and of expression, given powerful new voice in the twenty-first century by Mexican immigrant communities. What is the full array of the fandango? The superb essays gathered in this collection lay the foundational stone for further exploration.

This analytical history traces representations of flamenco dance in Spain and abroad from the twentieth century to the present, using histories, film, accounts of live performances, and practitioner interviews. Beginning with an analysis of flamenco historiography, the text examines images of the female dancer in films by Luis Buñuel, Carlos Saura, and Antonio Gades; stereotypes of flamenco bodies and Andalusian culture in Prosper Mérimée's *Carmen*; and the ways in which contemporary flamenco dancers like Belén Maya and Rocío Molina negotiate the stereotype of *Carmen* and an idealized Spanish feminine that pervades "traditional" flamenco. Instructors considering this book for use in a course may request an

examination copy here.

How is the politics of Blackness figured in the flamenco dancing body? What does flamenco dance tell us about the construction of race in the Atlantic world? *Sonidos Negros* traces how, in the span between 1492 and 1933, the vanquished Moor became Black, and how this figure, enacted in terms of a minstrelized Gitano, paradoxically came to represent Spain itself. The imagined Gypsy about which flamenco imagery turns dances on a knife's edge delineating Christian and non-Christian, White and Black worlds. This figure's subversive teetering undermines Spain's symbolic linkage of religion with race, a prime weapon of conquest.

Flamenco's Sonidos Negros live in this precarious balance, amid the purposeful confusion and ruckus cloaking embodied resistance, the lament for what has been lost, and the values and aspirations of those rendered imperceptible by enslavement and colonization.
