Portion control is huge when it comes to healthy eating. Focus on colorful foods like fresh fruits and veggies. Know the right foods to eat before a workout to maximize the effects! Get Creative!

Getting Started with an Active Lifestyle | Strongerrr.com

The best way is to start slow. The mistake that a lot of people make when they start an active lifestyle is that they start going to the gym 6 times a week or sign up for some extremely strenuous class. Unfortunately, most people cannot stick to this new schedule because their bodies are not used to this amount of activity.

Active Lifestyle - Live Bold and Bloom

aim to be physically active every day. Any activity is better than none, and more is better still do strengthening activities that work all the major muscles (legs, hips, back, abdomen, chest, shoulders and arms) on at least 2 days a week

Exercise - NHS

To stay healthy, adults should try to be active every day and aim to achieve at least 150 minutes of physical activity over a week through a variety of activities. For most people, the easiest way to get moving is to make activity part of everyday life, like walking or cycling instead of using the car to get around. However, the more you do, the better, and taking part in activities such as sports and exercise will make you even healthier.

Benefits of exercise - NHS

Many people in our society lead inactive lifestyles due to passive job roles, leisure activities and, sometimes, a lack of opportunity. Sedentary lifestyles can cause poor health.

Sedentary lifestyles - Sedentary lifestyles - WJEC - GCSE ...

Exercise Walking is simple, free and one of the easiest ways to get more active, lose weight and become healthier. Sometimes overlooked as a form of exercise, walking briskly can help you build stamina, burn excess calories and make your heart healthier. You do not have to walk for hours.

Walking for health - NHS

do at least 150 minutes of moderate intensity activity a week or 75 minutes of vigorous intensity activity if you are already active, or a combination of both; reduce time spent sitting or lying down and break up long periods of not moving with some activity
