SH from /s/. Have your child say /s/ (sssssssss). While you child is saying the /s/ sound have them pucker their lips slightly and move their tongue back slowly until you hear a good SH sound. SH from [ee]. Have your child say [ee]. Then have them say [ee] in a whisper with no voice.

[How to teach the SH Sound | Mommy Speech Therapy](#)

Ask your child to say the long /e/ sound as a whisper, and then to pull the corners of their mouth together into a kiss shape. This should result in the /sh/ sound. After your child can successfully make and use the /sh/ sound by itself, practice with syllables, small words, and eventually sentences. Visual Cues.

Now inside this 'scripts directory', create a new file named hello.sh using the cat command: cat > hello.sh. Insert the following line in it by typing it in the terminal: echo 'Hello, World!' Press Ctrl+D to save the text to the file and come out of the cat command. You can also use a terminal-based text editor like Vim, Emacs or Nano. If you are using a desktop Linux, you may also use a graphical text editor like Gedit to add the text to this file.

Specify the pathname to the script file (rather than typing in inshall.sh) as a security measure. The shell wants to make sure it is running the correct install.sh, requiring you to specify its exact location. The only exception is if your script is located in a directory listed in your system's PATH environment variable.

Fold the bottom half of the parchment paper over the top half so it covers the kief. You can even fold the parchment several more times to create a little packet. Place the parchment paper on an iron-ready surface (an ironing board works great). Place the hand towel or t-shirt over the parchment paper.
