Through humor, science and engaging illustrations, your kids will surely learn a lot all about the mysteries going on inside their bodies. Have your kids find out how fun and easy learning can be with help from the educational and engaging coloring pages inside. Little ones will love following the number codes to color the human body system or organ on every page. It also helps in developing fine motor skills, counting, number recognition, eye-hand coordination and improves pen controls. About this Human Body coloring book: 30 unique color by number and activity pages for kids to learn about the human body. Features trivia, word search puzzles, word scrambles and more. Clear and detailed illustrations that show kids how their bodies work. Every page is of giant size (8.5 x 11 inches) for easy coloring with little hands. Every page is also printed single sided to avoid bleed through even when coloring with markers.

Why should your little one study anatomy? Because it's a prerequisite in life that body parts are identified, along with their uses. The purpose of this coloring book is to encourage understanding of anatomy while improving memory in every stroke. Coloring has the power to make that possible because it is a unique hands-on activity that creates imprints in the brain. Secure a copy now!

Connect students in grades 4 and up with science using Jumpstarters for the Human Body: Short Daily Warm-Ups for the Classroom! This 48-page resource covers body organization and the skeletal, muscular, circulatory, digestive, respiratory, excretory, nervous, and endocrine systems. It includes five warm-ups per reproducible page, answer keys, and suggestions for use.
