A landscape refers not just to a piece of scenery that can be viewed from some lookout point, but to a patch of land that has some sort of socially-created unity as a result of the behaviors people carry out on it, or the meanings they ascribe to it, or both. Cultural activity leaves traces -- deliberately or inadvertently -- on the landscape, which subsequent cultural activity has to cope with.

Human Geography: Landscapes of Human Activities - Jerome

...

Human geography. Since 1945 human geography has contained five main divisions. The first four—economic, social, cultural, and political—reflect both the main areas of contemporary life and the social science disciplines with which geographers interact (i.e., economics, sociology, anthropology, and political science and international relations, respectively); the fifth is historical geography.

Geography - Human geography | Britannica

Human geography is considered a major branch of geography alongside physical geography. Advertisement. Topics of study under human geography, also known as cultural geography, cover cultural characteristics and how they relate to their places of origin. Cultural landscapes are particularly important, as a people's physical environment is intrinsically linked to how the culture develops.
