Fuels, Lubricants, Coolants, and Filters easily helps a reader to understand these wonderful liquids and filters better. By starting with the basics, it builds your knowledge step-by-step in a very structured manner.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

This book constitutes the thoroughly refereed post-conference proceedings of the International Workshop on Interoperability and Open-Source Solutions for the Internet of Things, FP7 OpenIoT Project, held in Conjunction with SoftCOM 2014, in Split, Croatia, in September 2014. The 11 revised full papers presented together with the extended abstracts of 2 keynote talks were carefully reviewed and selected from numerous submissions during two rounds of reviewing and improvement. The papers are organized in topical sections on OpenIoT platform, open platforms and standards, and IoT Applications.
