and SAVE \$1000 or more compared to buying a new motor! With a little know-how and a few common tools, you can fix an old motor—bring it back from the dead. Sometimes all it takes is a squirt of WD-40 into the cylinder and a new spark plug. Or a new set of points and condensers—which do not require expert knowledge or black magic to install. Maybe the carburetor needs cleaning and adjusting. You can do it! Max E. Wawrzyniak III is an outboard motor guru. He advises you to find an old motor at a yard sale for \$100 or so (and he tells you exactly which ones to look for), and fix it up—rather than spending \$1500 or more on a new motor. He is a big fan of “cheap power.” Get on the water with money left in your pocket. With a basic understanding of how these motors work, a little logical thinking, and a few hours’ work, you can go boating for a fraction of what everyone else has to pay. Also—for the boater who already owns

West of Ireland. This wonderful showcase represents many hours of work by the students and their teachers and is a chance for students to exhibit their many skills and talents. Over the last few years, our school has been very fortunate to be able to collaborate with Pobal le Ch é ile, a local community development group in Falcarragh. This collaboration has been a very positive experience for the students and staff at P.C.C. and has served to help build links in the community. It has also given our JCSP students the opportunity to work with some of their greatly talented staff and learn so much through workshops, visits and talks. This year, Rang Eoin chose to create a digital book based around a tree planting project they undertook. The idea for this project came about through a donation of trees to the school and community from "Trees on the Land" which is a charity and not-for-profit project from the Green Economy Foundation in collaboration with The
