Part of the artisanal/DIY movement is about authenticity and quality, with a return to simplicity, real values, genuine materials, and careful craftsmanship. Leather is one of those authentic materials, and while it has always been used for handbags and gloves, it's enjoying a resurgence in the field of crafts. Simple objects elegantly made of leather are featured everywhere on maker blogs, photo-sharing sites, tutorials, and craft marketplaces. Leather is in the real world, too, in heavily curated hipster boutiques and well-edited coffee shops that sell sundries. Idiot's Guides: Leather Crafts offers 20 projects (illustrated with copious step-by-step photos), ranging from beginner to advanced, each one building on the skills that have been taught in prior projects. Unlike most existing books on leathercraft, which come with a heavy whiff of the '70s, this one has a sleek, modern aesthetic. The projects are functional, and the minimal, elegant embellishment and natural finishes will keep them timeless.

Historic, classic, creative, and fun, leather crafting is a craft for all ages. Whether you are just a beginner looking to get started, or an experienced leather artist in need of a concise reference, Leathercrafting is your guide to an enjoyable craft that lasts a lifetime. Master leather artisans Tony and Kay Laier introduce you to the basics of leather preparation, and show you how to use stamps, punches, cutters, and other essential tools. They provide expert tips on edge finishing methods, and take you step-by-step through a traditional floral carving project. From forming, moulding, and embossing leather to creative stitching, lacing, and braiding, this book will teach you all of the skills you'll need to make beautiful belts, wallets, purses, holsters, cases, jewelry, home accessories, and more.
