care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act

Novice educators to understand that their challenges are shared by others. With the goal of improving the experience of nurses transitioning from clinician to educator, in hospitals as well as schools of nursing, this unique book presents the stories of nurses who made this transition. It presents the findings of
