For Suburban Water Heaters, the following is a quote from the Suburban Manual. "Sulphur water can be caused by a chemical action or by bacteria. The solution to eliminate is chlorination of the water system. Add about six (6) ounces of chlorinated common household liquid bleach to each 10 gallons in the water tank.

Water Heater Usage Guide - Heartland Owners Manuals

Hot water cylinders are well insulated tanks that store water after it has been heated. This allows for plenty of hot water without the need for constantly running heating, allowing your customers to save money on energy bills. Direct Hot Water Cylinders. Direct hot water cylinders heat the water inside the cylinder itself, typically with an immersion heater. This makes them well suited for ...
