Online Library Napoleon Bonaparte Research Paper

Ever since 1821, when he died at age fifty-one on the forlorn and windswept island of St. Helena, Napoleon Bonaparte has been remembered as either demi-god or devil incarnate. In *The Rise of Napoleon Bonaparte*, the first volume of a two-volume cradle-to-grave biography, Robert Asprey instead treats him as a human being. Asprey tells this fascinating, tragic tale in lush narrative detail. *The Rise of Napoleon Bonaparte* is an exciting, reckless thrill ride as Asprey charts Napoleon's vertiginous ascent to fame and the height of power. Here is Napoleon as he was-not saint, not sinner, but a man dedicated to and ultimately devoured by his vision of himself, his empire, and his world.

This book details specific political and militaristic events in the life of Napoleon Bonaparte. Justin Butler does his very best to provide

students and adults with solid, entry-level academic knowledge on the French historical figure. This book is a collection of research papers, some of which have been published in historical journals.

Reproduction of the original: Napoleon Bonaparte by John S.C. Abbott

Marking the 200th anniversary of his death, Napoleon is an unprecedented portrait of the emperor told through his engagement with the natural world. “How should one envisage this subject? With a great pomp of words, or with simplicity?” —Charlotte Brontë, “The Death of Napoleon” The most celebrated general in

Online Library Napoleon Bonaparte Research Paper

history, Napoleon Bonaparte (1769–1821) has for centuries attracted eminent male writers. Since Thomas Carlyle first christened him “our last Great Man,” regiments of biographers have marched across the same territory, weighing campaigns and conflicts, military tactics and power politics. Yet in all this time, no definitive portrait of Napoleon has endured, and a mere handful of women have written his biography—a fact that surely would have pleased him. With Napoleon, Ruth Scurr, one of our most eloquent and original historians, emphatically rejects the shibboleth of the “Great Man” theory of history, instead following the dramatic trajectory of Napoleon’s life through gardens, parks, and forests. As Scurr reveals, gardening was the first and last love of Napoleon, offering him a retreat from the manifold frustrations of war and politics. Gardens were, at the same time, a mirror image to the

battlefields on which he fought, discrete settings in which terrain and weather were as important as they were in combat, but for creative rather than destructive purposes. Drawing on a wealth of contemporary and historical scholarship, and taking us from his early days at the military school in Brienne-le-Château through his canny seizure of power and eventual exile, Napoleon frames the general's story through the green spaces he cultivated. Amid Corsican olive groves, ornate menageries in Paris, and lone garden plots on the island of Saint Helena, Scurr introduces a diverse cast of scientists, architects, family members, and gardeners, all of whom stood in the shadows of Napoleon's meteoric rise and fall. Building a cumulative panorama, she offers indelible portraits of Augustin Bon Joseph de Robespierre, the younger brother of Maximilien Robespierre, who used his position to advance

Napoleon's career; Marianne Peusol, the fourteen-year-old girl manipulated into a Christmas-Eve assassination attempt on Napoleon that resulted in her death; and Emmanuel, comte de Las Cases, the atlas maker to whom Napoleon dictated his memoirs. As Scurr contends, Napoleon's dealings with these people offer unusual and unguarded opportunities to see how he grafted a new empire onto the remnants of the ancien régime and the French Revolution. Epic in scale and novelistic in its detail, Napoleon, with stunning illustrations, is a work of revelatory range and depth, revealing the contours of the general's personality and power as no conventional biography can.

A breakout biography of Louis-Napoleon III, whose controversial achievements have polarized historians. Considered one of the pre-

Online Library Napoleon Bonaparte Research Paper

eminent Napoleon Bonaparte experts, Pulitzer Prize-nominated historian Alan Strauss-Schom has turned his sights on another in that dynasty, Napoleon III (Louis-Napoleon) overshadowed for too long by his more romanticized forebear. In the first full biography of Napoleon III by an American historian, Strauss-Schom uses his years of primary source research to explore the major cultural, sociological, economical, financial, international, and militaristic long-lasting effects of France's most polarizing emperor. Louis-Napoleon's achievements have been mixed and confusing, even to historians. He completely revolutionized the infrastructure of the state and the economy, but at the price of financial scandals of imperial proportions. In an age when "colonialism" was expanding, Louis-Napoleon's colonial designs were both praised by the emperor's party and the French military and resisted by the

socialists. He expanded the nation's railways to match those of England; created major new transoceanic steamship lines and a new modern navy; introduced a whole new banking sector supported by seemingly unlimited venture capital, while also empowering powerful new state and private banks; and completely rebuilt the heart of Paris, street by street. Napoleon III wanted to surpass the legacy of his famous uncle, Napoleon I. In *The Shadow Emperor*, Alan Strauss-Schom sets the record straight on Napoleon III's legacy.

September 29, 1969

“A mesmerizing account that illuminates not just the Napoleonic wars but all of modern history . . . It reads like a novel” (Lynn Hunt, Eugen Weber Professor of modern European history, UCLA). The twentieth century is usually seen as “the century of total war.” But as the historian David A. Bell argues in this landmark work, the phenomenon actually began much earlier, in the era of muskets, cannons, and sailing ships—in the age of Napoleon. In a sweeping, evocative narrative, Bell takes us from campaigns of “extermination” in the blood-soaked fields of western France to

Research Paper

savage street fighting in ruined Spanish cities to central European battlefields where tens of thousands died in a single day. Between 1792 and 1815, Europe plunged into an abyss of destruction. It was during this time, Bell argues, that our modern attitudes toward war were born. Ever since, the dream of perpetual peace and the nightmare of total war have been bound tightly together in the Western world—right down to the present day, in which the hopes for an “end to history” after the cold war quickly gave way to renewed fears of full-scale slaughter. With a historian’s keen insight and a journalist’s flair for detail, Bell exposes the surprising parallels between Napoleon’s day and our own—including the way that ambitious “wars of liberation,” such as the one in Iraq, can degenerate into a gruesome guerrilla conflict. The result is a book that is as timely and important as it is unforgettable. “Thoughtful
