the Continuing Competency Assessment (CCA). User friendly and concise, this review's content mirrors that of the actual exam and is structured in accordance with the most updated test plan blueprint. This resource's numerous exam-style questions and answers with rationales included in each chapter help readers uncover gaps in their knowledge. This review synthesizes the knowledge required to pass the exam, saving the reader time and effort by omitting extraneous material. In addition to spotlighting essential content throughout the text, recommended references provide the reader with the option to seek out additional information as needed. Additional benefits include important information about the exam along with savvy study and test-taking tips. This review will ensure exam success for both new NNPs and those who are taking the CCA exam. **KEY FEATURES** Mirrors the format of the certification exam Concise outline format for easy access to essential content Written by leading NNP educators and clinicians Includes valuable study and test-taking tips Exam-style questions and answers with explanatory rationales Includes more than double the amount of questions on the exam, including a 175-question simulated practice exam Purchase includes digital access for use on most mobile devices or computers

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, *Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition* prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN's CCRN®-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN's latest CCRN®-Neonatal exam and the NCC's latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Update and empower your neonatal and newborn intensive care unit (NICU) nursing know-

how, with the evidence-based *Developmental Care of Newborns and Infants*, 3rd Edition. This leading text on developmentally supportive care of infants and their families addresses the full spectrum of neonatal care, from prenatal planning to delivery, plus neonatal intensive care and the transition to home. A completely updated version of the respected National Association of Neonatal Nurses (NANN) publication, this is the definitive guide for learning current care standards, and the ideal foundation for neonatal nurses, students, and NICU nurses.

A comprehensive examination of neonatal nursing management from a physiologic and pathophysiologic approach. The book features a complete physiologic and embryonic foundation for each neonatal system as well as coverage of associated risk factors, genetics, critical periods of development, nutrition and parenting.

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. This new edition also features an increased focus on evidence-based practice, new CAMTS and AAMS guidelines, new techniques for PICC placement, and changes to the Neonatal Resuscitation Program. All necessary information to prepare for the neonatal intensive care nursing certification examination is included. Concise outline format provides access to important nursing considerations associated with the management of the most common conditions in the neonate. Text provides a collaborative effort between the three most authoritative associations in neonatal intensive care nursing - AWHONN, AACN, and NANN. Information on families, ethics, legal issues, research, case management, and the transition to home acknowledge the full scope of neonatal nursing practice. NEW! CAMTS and AAMS guidelines, techniques for PICC placement, and changes to the Neonatal Resuscitation Program are just a few of the updates that reveal the importance the new edition places on safety practices and procedures. NEW! Updated chapter on Patient Safety includes selected improvement strategies and resources for neonatal nurses to build a patient safety toolkit, discusses TeamSTEPPS (Team Strategies and Tools to Enhance Performance and Patient Safety), and recognizes human issues, such as shift work and fatigue. NEW! Increased focus on evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. NEW! Strategies to promote inclusionary care better reflect nursing care today by focusing on family-centered care, comprehensive perinatal records, health care teams in the NICU, and best practices in the care of the late preterm infant. NEW! Comprehensively revised chapter on Immunology identifies risk factors for infection associated with term and preterm infants, distinguishes clinical symptoms and therapies associated with TORCHES CLAP spectrum infections, and includes prevention strategies for hospital-acquired infections. NEW! Thoroughly updated content and references reflect currency and technologic advances. NEW! Refocused chapter on Developmental Care guides the nurse to use assessment within the context of the environment and situation to initiate interventions in the moment or use patterns of responses for developing plans of care and presents core measures on evaluating developmental care practices in the NICU.

Written for neonatal nurses and NICU clinicians, this innovative book provides evidence-based guidelines and clinical practice recommendations that have been proven to mitigate the trauma experience of the hospitalized infant-family dyad. Including updated, evidence-based, age-appropriate care core measure attributes and criteria, these in-depth guidelines transform the

NICU culture of care for measurable and sustainable results. Featuring the latest scientific research to support and explain the best practice recommendations and clinician and parent resources, the text outlines implementation strategies to support the adoption of trauma-informed, age-appropriate care in the NICU. The text reflects a growing awareness of the impact of early life adversity on the developing human being in the NICU. Substantiated by the converging multidisciplinary research on the science of human development, the provision of trauma-informed care in the NICU reduces the strain on the hospitalized infant and family. With endorsements by respected transdisciplinary neonatal clinicians, this text provides guidelines that encompass the five core measures for age-appropriate care, including the healing environment, pain and stress, protected sleep, activities for daily living, and family collaborative care. The book also features downloadable sample competencies, algorithms, and parent teaching guides, along with additional e-learning modules for continuing nursing education. A self-assessment checklist, allowing the rating of current practice related to the core measures for age-appropriate care, adds to the book's utility. **KEY FEATURES:** Provides clinically relevant, evidence-based practice guidelines aimed at minimizing the trauma experience of the hospitalized neonate and family Presents evidence-based updates to the five core measure sets for age-appropriate care in the NICU Introduces proven implementation strategies to facilitate practice transformation Offers downloadable sample competencies, algorithms, parent teaching guides, and e-learning modules with CE credit Reviewed and endorsed by transdisciplinary neonatal clinicians
