OECD Reviews of Labour Market and Social Policies: Israel. This 2009 review of Israeli labour market and social policy finds that Israel has enjoyed strong economic growth over the last decade, but the benefits of this are being distributed unevenly. Poverty rates are higher than in any OECD country, which reflects the deep social and economic divides in Israeli society.

OECD Reviews of Labour Market and Social Policies: Russian Federation 2011. The global financial crisis interrupted a protracted period of strong economic growth in the Russian Federation. Despite a large decline in output, job losses and hikes in unemployment remained rather modest, and much of the labour market adjustment took place through reduced working hours and, in particular, real wages.

~~LITHUANIA — search.oecd.org~~

Occupational licensing and non-competition agreements are two important types of labour market regulation in the United States, both covering around one fifth of all workers. While some regulation is needed to protect safety and ensure quality of services, it also creates entry barriers and reduces competition with important costs for job mobility, earnings and productivity growth.
