cast light on the structure of verbal interaction, and in particular considers how successive utterances cohere together in continuous spoken discourse.

## **Studies in Discourse Analysis by Malcolm Coulthard**

Studies in Discourse and Grammar is a monograph series providing a forum for research on grammar as it emerges from and is accounted for by discourse contexts. The assumption underlying the series is that corpora reflecting language as it is actually used are necessary, not only for the verification of

## **Vol 17, No 5 - Taylor & Francis**

Discourse studies look at the form and function of language in conversation beyond its small grammatical pieces such as phonemes and morphemes. This field of study, which Dutch linguist Teun van Dijk is largely responsible for developing, is interested in how larger units of language—including lexemes , syntax, and context—contribute meaning to conversations.
