To program the Symbol LS 2208 USB Bar Code Scanner, • Scan each of the following bar codes in order. • Each scan must produce a “beep” or series of “beeps” before proceeding to the next bar code. • If you’ve missed one or more bar codes, or scanning did not produce a “beep”, begin again with the first bar code

# Read Book Symbol Ls2208 Programming Guide

and work your way to the last code until each and every one produces a “beep” or “beeps”.

The SYMBOL LS2208 barcode scanner is not programmed out-of-the-box to perform a carriage return function after each scan. A carriage return (aka enter key) is

# Read Book Symbol Ls2208 Programming Guide

generally needed to bring the cursor down after each scan or (in certain POS software and inventory applications) to bring a cursor to the next data field. A carriage return function will increase overall scanning productivity for any POS or inventory system and is normally a required functionality for most users.
